

Patients and families often ask how they can thank their State of the Heart caregivers. You may choose to honor them by making a financial donation through our **Shining Star** program. The Shining Star program allows you to honor your State of the Heart physician, nurse, hospice aide, social worker, chaplain, bereavement specialist, volunteer or other individual who made a difference in your care. Please complete the back of this card with the name of your special caregiver or team and enclose your donation. Then mail it to State of the Heart Hospice. Your Shining Star will receive an award and a card informing them of your thoughtful gift. All donations will support the patients and families served by State of the Heart Hospice.

*Add good days to your life and full life to your days.*

# I'd like to remember my Shining Star.

Name of the person/team you are recognizing:
